OVERVIEW

Product-minded student with hands-on experience in market & competitor research, data analysis & reporting, and cross-functional coordination across design, engineering, and business teams. Skilled at translating user and stakeholder feedback into requirements, documenting user stories, and supporting testing and launch through brainstorming, prioritization, and hypothesis validation. Brings real-world operations management experience, having led logistics for a 2,500+ attendee event and currently overseeing daily operations for a 300+ cattle facility. Strong analytical and problem-solving skills with practical AI fluency using ChatGPT, Gemini, and Claude for research and prototyping.

EDUCATION

VIT Bhopal University

Bachelor of Technology in Computer Science | GPA: 8.16 / 10.0

Bhopal, Madhya Pradesh

Sept. 2023 – May 2027

Sagar Public School

Class XII (CBSE) | 85.6%

Bhopal, Madhya Pradesh

May 2023

Sagar Public School

Class X (CBSE) | 94.8%

Bhopal, Madhya Pradesh

May 2021

SKILLS

Product Skills: Market & Competitor Research, Data Analysis & Reporting, Product Discovery & Documentation, User Stories & PRDs, Cross-Functional Coordination, Testing & Launch Support, Hypothesis Validation, Roadmapping & Prioritization, Agile/Scrum Ceremonies, Stakeholder Management, Analytical & Problem-Solving, Customer Problem Solving, Data-Driven Decision Making, Fast-Paced Startup Execution

Tools: Jira, Figma, Notion, Canva, MS Excel/Google Sheets, Dashboards & Reporting

AI Fluency: Google Gemini, ChatGPT, Claude – AI-assisted research, prototyping, and workflow automation

LEADERSHIP & EXTRA-CURRICULAR

Event Coordinator

Garba Night 2K25

- Led a 5-member logistics and supply-chain team over a 1-week prep cycle to deliver a 2,500+ attendee event, coordinating vendors and timelines for smooth, on-schedule execution.
- Managed vendor sourcing, supply scheduling, and on-ground crowd flow for 2,500+ attendees, resolving logistics bottlenecks in real time to keep the event running without disruption.
- Acted as the single point of contact between vendors and the core organizing committee, ensuring timely delivery of supplies and setup ahead of the event.
- Built a post-event debrief summarizing what worked and what didn't, feeding lessons learned into planning recommendations for future events.

AWS Cloud Club

Event Management Team

- Supported a 10–20 member event management team as part of the on-ground execution crew for 2–3 college events, owning logistics coordination end-to-end.
- Handled on-site setup, vendor coordination, and real-time troubleshooting during events, helping ensure smooth execution for attendees and organizers alike.
- Coordinated with fellow team members to plan logistics ahead of each event, aligning on setup requirements, vendor timelines, and on-ground responsibilities.
- Adapted quickly to on-the-spot changes during live events, helping the team resolve last-minute logistics issues without disrupting the schedule.

Volunteer Operations Lead

Anjani Mata Gaushala

Khandwa, Madhya Pradesh

Ongoing

- Manage day-to-day operations for a gaushala housing 300+ cattle, overseeing feed supply, staff coordination, and facility upkeep to ensure consistent care standards.
- Coordinate with local vendors and volunteers to maintain a steady supply chain for feed, medical care, and other operational resources.
- Own resource planning and prioritization for a large-scale, ongoing operation, applying the same structured, process-driven approach used in product and event work.
